

PHOENIX HOTEL MANAGER CENTRAL RESERVATIONS

Central Reservations Overview:

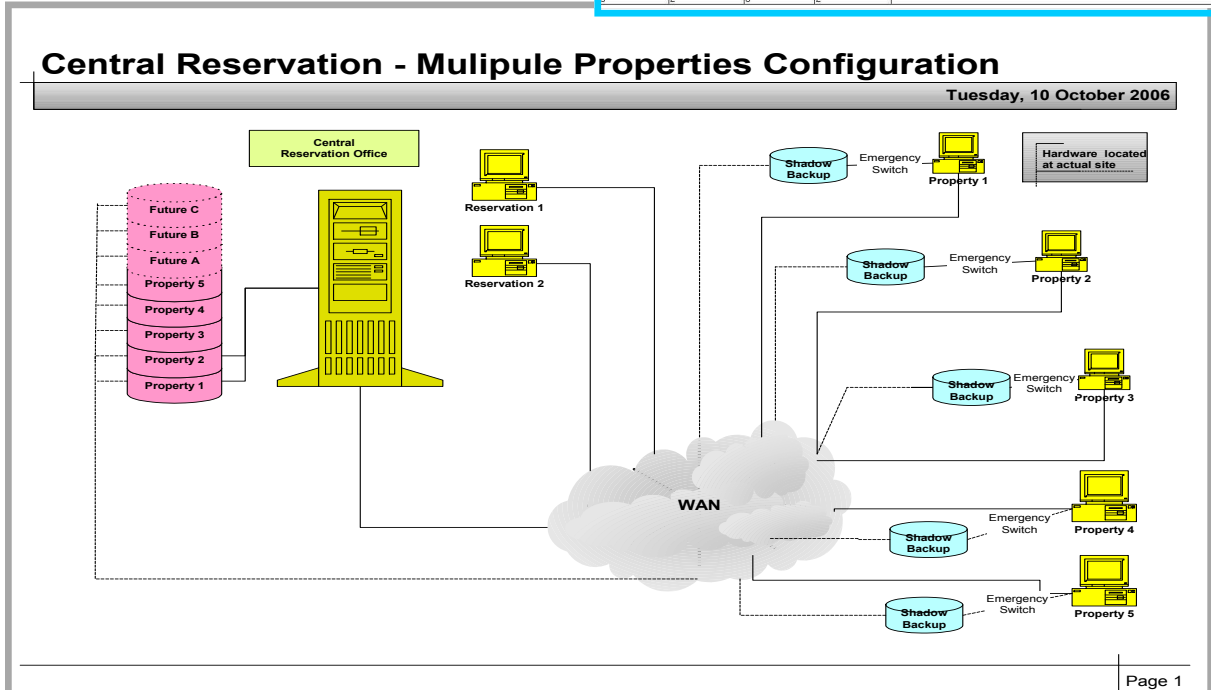

THS is pleased to offer clients with multiple properties the opportunity to provide a central reservation capacity. Reservations can be made at either the property or the central reservation office, or both.

The database is created for each site, which allows unlimited scalability and is located at a central location. The reservationists can choose to search availability at one property, more than one, or all.

Availability Search:

Central Reservations can be customised to suit individual client needs with multiple access levels to various sites or all sites. The system is also able to manage Multi-property reservations from each location.
