

PHOENIX HOTEL MANAGER STRATA MANAGEMENT

Strata Management

Hotels and Apartments that are owned by individual investors on a freehold strata title, when not occupied by the owner they are professionally managed by experienced hospitality operators.

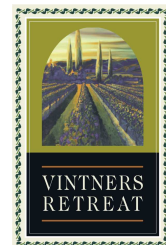

Recent trends in property investment has seen a variety of developers offering investor the opportunity to own part of a holiday resorts, luxury lodges, luxury condominium style apartments and villas. When not being lived in they are partial or fully managed leasing that return rental income to owners.

Total Hospitality Solutions property management system, Phoenix Hotel Manager specialises in this area of ownership and allows property managers to offer their owners a suite of reporting and statement options.

As well as offering a powerful tool for day to day operation with numerous addition features including automated website bookings, activities modules and third party interfaces.
